Attached is the 1966 Report on the use of ADP Equipment in the DD/S Offices. This report replaces the ones sent you yesterday. It is in three parts as follows:

1. Consolidated Report on all DD/S Units Without Computers (Schedules A and B).

2. Report on a Unit with a "Message Switching" Computer (Schedule A).

3. Report on a Unit with two computers (Schedules A, A-2, B, B-1, and Summary).

Also, as you requested, I have attached for your information copies of the reports received from the various DD/S Offices. (However, I suggest you spare yourself plowing through them since they are included in the three reports above).
